European Chemical Sciences

# Connecting Young Chemists Across Europe

## About the EYCN

The **European Young Chemists' Network** (EYCN) comprises members from more than twenty countries across Europe. The EYCN is the younger members' division - those under the age of 35 - of the **European Chemical Society** (EuChemS).

## Our Vision

The EYCN's goal is to provide a platform to exchange ideas, promote new projects, and improve the visibility and reach of chemistry for a wider audience.

We aim to create new educational and networking opportunities in the support of chemists in the early stages of their careers.

## Structure

The EYCN board is elected by delegates of all member societies every two years. Projects are managed in four teams:

Chair  
Secretary

Communication Team  
Membership Team  
Networks Team  
Science Team

## Our Activities

**Press and media**  
Articles & monthly newsletters

**European Young Chemists' Award**  
Poster and oral presentation awards

**Video contests**  
*Chemistry Rediscovered*

**Photography contests**  
*Photochimica*

**Mentoring programs**  
*ERC and MSCA*

**Collaboration with the EU**  
*COST Actions*

**Interactive website**  
*Studying and working in Europe*

**Soft skills workshops**  
*Career days*

## EYCN Events

EYCN delegates coordinate events all across Europe and beyond.

- EYCN Delegates' Assembly (DA)
- European Young Chemists Meeting (EYChem)
- EYCN symposium at the EuChemS Congress

## International Exchanges

Co-operation with other international networks enables us to offer international exchange and scientific programs:

Collaboration with the American Chemical Society Younger Chemists Committee (ACS-YCC).

**Young Chemists Crossing Borders (YCCB)** is the main exchange program between chemists from Europe and from the United States.

Collaboration with the **International Younger Chemists Network (IYCN)**, the associated organization of IUPAC.

**JOIN OUR NETWORK**
